

Jack mackerel

Trachurus murphyi (Pelagics)

Jack mackerel is a pelagic schooling fish referring to horse mackerel family. Its natural area of living is south Pacific region, with most of the stocks living nearby Chile and Peru. Its commercial names include Jack mackerel, Horse mackerel and Redtail jack mackerel, which should not be mistaken with Greentail jack mackerel (*Trachurus declivis*), found in Australia and New Zealand.

Due to abundance of the stock, and high catch quotas, Jack mackerel has been important species for the catching regions as well as for West-African markets. Having a relatively low fat content, varying between 6 and 9% across the season, and a true mackerel flavor, it is widely used for smoking, canning and frying in different markets.

The main fishing nations are Chile and Peru. The high season starts in January and runs to June. The average commercial size of the fish is 500-600 grams, or about 35-40 cm in length.

Categories: Wholesale, Processing.

Size: WR - 200-400 / 300-600 / 600+ / 800-1200 / | HGT 300-600 / 600-800 / 800-1200

Countries:	Nutrition data:	Product forms:	Processing:
Chile	Calories: 124 kcal.	WR	Seafood
Faroe Islands	Protein: 16.9 g.	HGT	Landfrozen
New Zealand	Fat: 7.5 g.		
Peru	Omega 3: 0.9 g.

About **SEA CHEF TECHNOLOGIES**

SIA Sea Chef Technologies is an international seafood trading and sourcing company built on a simple idea: to connect reliable seafood production with professional, stable service through strong management, disciplined execution, and modern IT tools. Over time, the company has grown from a focused team into a structured organization with employees and agents operating across different markets, working with a broad portfolio of **frozen and fresh fish, shrimps, and molluscs**. Our growth has been practical rather than theoretical. Every customer, supplier, and project has helped us refine the way we work, from purchasing and quality control to logistics, documentation, and risk management.

We operate in the international seafood B2B segment. Our role is not simply to buy and sell fish, but to create dependable supply solutions in a global market shaped by seasonality, catch volumes, quotas, logistics costs, regulations, currency fluctuations, and shifting customer needs. We combine product expertise with structured internal processes so that our customers receive the right product, in the right quantity, with the right documentation, and in a quality fully suited to its final use. **In this sense, our real product is not only seafood itself, but also information, service, and execution.**

We serve a broad range of professional customer segments across the seafood chain, including importers and wholesalers, processors, distributors, HoReCa businesses, and supermarket chains. Some of our customers are direct end users with highly specific quality and compliance requirements, while others rely on us as a sourcing and logistics partner to bridge information gaps and secure stable supply. What unites them is the need for a professional counterpart who understands seafood products, works confidently with specifications and volumes, and can support both long-term supply programs and spot business. Our customers value speed, clarity, accuracy in documentation, honest communication, and reliable complaint handling, because their own success depends on stable performance from every supplier in the chain.

Our company is guided by a clear set of core principles: promptness, reliability, transparency, and long-term partnership. This combination of product knowledge and process discipline is what defines Sea Chef Technologies and allows us to serve the international seafood market with confidence and consistency.

**The right quality fish. For the right customer.
At the right time. Delivered globally.**
